Flowing Features

If you've found creating facial features intimidating, this is the class for you! During this 4-hour workshop, we will explore creating features of the face with water soluble products including, pencils, drawing tools, pens, and watercolors. Create many studies of each feature before moving on to an intriguing portrait of your choice. Students will be guided through several exercises that will build upon each other that you can use as studies in your future portrait work!

Be brave.

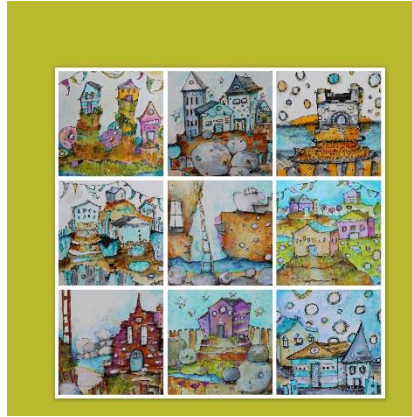

Be Bold.

Be adventurous!

This class will go beyond the cutesy facial features but still add touches of whimsy and color. Our demonstrations will focus on realism with a slant above fanciful.
