Artist Talk in the Kiva Room - Saturday, October 7th 11 am

This solo exhibition focuses on the deep, geologic memory of the Earth, as revealed in Open Space. In wild and undisturbed spaces one can sense the presence of millennia that stretch beyond the human lifetime. Through drawings and hand woven French tapestries, Elizabeth Buckley offers a glimpse into the realm of geologic, mythic, and temporal memory. Her works take the viewer back in time to European history and art, to the petroglyphs along the escarpment of Albuquerque, and then to her present-day interpretations.

(Elizabeth was a ABQ Fiber Arts Council scholarship recipient.)
