**Classroom B**

**Description:** Learn to create wildly colorful flower fields on white fabric and inspire the artist within you. You will learn six techniques to create a colorful harmony using Tsukineko inks. In this hands-on classroom experience, you will gain confidence in learning how to produce fabulous surface designs, from the soft shading of a summer sky to dramatic rainbow effects of grasses and little poppy flowers in your dream flower field. This process is so easy and fun, you will be pleasantly amazed!

**The Instructor: Joyce Teng** During her career in pharmacy, Joyce dreamed of being an artist. Since retirement, she has created an outlet through which she can share her enthusiasm and passion. Her company designs its own line of fun and sophisticated stencils and carries a wide range of innovative products that quilters and sewers can use to customize their fabrics. Joyce also distributes Tsukineko inks and has developed many easy-to-master techniques that have helped thousands of creative minds "color" their world! Not only does she love teaching students in her hands-on workshops, Joyce's pharmaceutical knowledge gives her an edge in her development of new products for the

creative fiber artist. She is also busy creating instructional workbooks and developing her DVD series.
